

Assessing Interest in Community Garden

The Kiwanis Club of Sand Lake and the Sand Lake Garden Club are working with Town of Sand Lake officials to explore resident interest in developing a community garden. Before going forward with establishing a community garden, we need to assess what interest exists among town residents to plant a vegetable garden on a parcel of public land. The community garden would be an opportunity to raise healthy food, work in harmony with the environment, and to share any excess bounty with individuals and families who are in need.

If you are interested in planting a vegetable garden on a public parcel of land, we want to hear from you by the deadline of **March 31**. Please provide us with the following information:

Yes, I'm interested in becoming a Community Gardener:
